Project

MusicSync Flutter, Dart, Python, REST APIs, An Online & Offline Music Player • Developed a cross-platform music application for Android, Windows, and Linux using Flutter from a single codebase. • Integrated Python-based REST APIs to fetch music, playlists, and user-related data in real time. • Implemented core music playback features including play, pause, next, previous, shuffle, repeat, and playlist management. • Used Hive and SharedPreferences for local storage to manage user preferences, playback state, recently tracks, and application settings. • Built a responsive and optimized UI for both mobile and desktop platforms, ensuring smooth performance and efficient API communication.	01/2026 – 05/2026
Recipe Sharing Community MERN Stack • Developed a full-stack recipe sharing platform enabling users to create, browse, search, and save recipes. • Implemented secure user authentication and authorization using JWT. • Built dynamic CRUD functionality for recipe creation, editing, and commenting. • Designed RESTful APIs with MongoDB for scalable and efficient data storage.	06/2023 – 07/2023
CSAI ChatBot MERN Stack, AI/ML, A BharatTech Experience Projects • Developed an AI-powered chatbot using the MERN stack with NLP-based conversational capabilities. • Integrated machine learning models and memory-based context handling for more accurate and personalized responses. • Utilized Kaggle datasets and Hugging Face models for training and improving chatbot performance. • Built secure REST APIs for chat processing, session management, and conversation history.	06/2025
College ERP System MERN Stack, An Ideathon Project for College Level • Developed a full-stack College ERP application to manage student records, attendance, academic schedules, and course information. • Implemented role-based authentication and authorization for Admin and Student dashboards. • Built CRUD modules for student management, faculty management, attendance, and notices. • Created a responsive dashboard with real-time data updates and optimized database queries.	2025
